## Profile

With a keen interest in management and design, I have honed my skills in graphic design, specializing in UI/UX to elevate user experiences. Proficient in Adobe software, I am deeply passionate about crafting compelling visuals for both applications and websites. Valuing teamwork, I prioritize collaborative efforts to achieve success, and I am committed to thoroughness in every task, while also sharing my creative insights.

## Work Experience

2023-present / **Barabak Digital Marketing**

### Product Designer

User experience design and website development. Managed a team to achieve project goals. Created user stories, wireframes, prototypes, and experience flows for digital products. Collaborated with developers for successful UI implementation. Designed banners, websites, and digital assets.

2022-2023 / **ORKA Food Technology LLC**

### Product Designer

During my employment with the company, I was responsible for the entire design and characterization process. Additionally, I managed the company's website.

2017-2022 / **TEN Company**

### Manager

Managed a team of 20+ employees, handling operational aspects including sales, financial management, marketing, and promotion.
